

# Televes presents CareLife, the technological solution for independent living, at MedPi in Monaco

**Santiago de Compostela, 11<sup>th</sup> May 2016.** Televes will participate as a technology exhibitor in [MedPi 2016](#), taking place in the Grimaldi Forum in Monaco from the 17th to the 20th of May. The company will present CareLife, an intelligent system that provides integral healthcare in the home and that can be tailored to the users necessities and evolution.

CareLife is designed to improve the quality of life of our dependent and elder citizens, with the purpose to motivate an active lifestyle. Its design is based on the latest Ambient Assisted Living (AAL) tendencies, using wireless sensors that autonomously analyze the routines of the person at home, creating user profiles and habits that become key in their care and security, preserving their intimacy and developing trust. Sara Rodríguez, Program Manager for the development of Digital Home solutions, has indicated that "CareLife is the the optimal solution to enjoy the tranquility of independent living at your own home".

This solution is part of Televes' line of business directed towards developing telecom solutions in the realm of the Intelligent Building and Smart City. The experience in this field, along with its R&D capacity have allowed Televes to place the most advance technology at the service of caring for the wellbeing of people. CareLife is well aligned with the objectives set forth by the European 2020 Horizon program.

## About Televes

*Televes is a leading global company focusing on the design, development and manufacture of systems and products associated with telecommunications services for the home, and specialising in reception and broadcast of television signals. The company's headquarters are located in Santiago de Compostela (Spain), where the company was founded in 1958. At present, Televes is the head of a Corporation formed by 21 subsidiaries (technological, industrial or commercial), near 700 employees and 53 invention patents.*

*Televes has nine international subsidiaries in Portugal, France, UK, Italy, Germany, Poland, Russia, UAE, China and USA, and distributes its products to more than one hundred countries on five continents through an extensive network of distributors. Throughout its 55 years of experience, Televes has launched more than 1,500 different products, an achievement that is understood from the company's real passion for manufacturing. The company produces at its own facilities to ensure the highest quality. To achieve this, it has been a pioneer in the implementation of automated robotised lines and has its own testing and quality control laboratories. Therefore, the brand's products proudly display the "European Technology Made in Europe" stamp.*
