

## Televes will present new solutions for the digital TV distribution in CABSAT 2011

Largest sectorial encounter for Middle East, Africa and South Asia, to be held in Dubai from 8 to 10 February

**Santiago de Compostela, 7th February 2011.** Televes Corporation will participate in [CABSAT MENA 2011](#), the main event for the Digital Industry of the Middle East, Africa and South Asia. In this forum, the Company will present leading solutions for the digital TV distribution, such as the new IPTV Headend-HE10 and the STB2010 High Definition Set-Top Box. Both products are noted for their advanced technology and high performance, as well as energy efficiency.

In the Company's booth (S1-L1) will also be on display the T0X headends. These modules are a new generation of digital headends that enable users to set all kinds of services and transmodulations, with technology specifically developed for high definition television (HDTV).

CABSAT MENA will take place at the International Convention and Exhibition Centre, in Dubai, from 8 to 10 February. Televes Corporation's participation will be co-ordinated by Televes Middle East, one of the nine subsidiaries that make up the company's multinational structure.
